## **DETAILED ACTION**

### **Summary**

On September 12, 2005, an Office Action was mailed to the Applicant rejecting claims 1-15, 17-19, 22-24, and 28. On March 10, 2006, the Applicant responded with arguments.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-15, 17-19, 22-24, and 28 are rejected under 35 U.S.C. 102(e) as being anticipated by Sehr (US 2001/0018660), as set forth in the previous Office Action.

With regard to amended claim 28, Sehr discloses a programmable memory device issued to a second user for storing information related to the financial transaction (p.3, 30—storage means provided to entities for storing information pertaining to card, which may also be a programmable memory device).

### ***Response to Arguments***

Applicant's arguments filed March 10, 2006 have been fully considered but they are not persuasive. The Applicant argues that Sehr does not disclose routing any payment information or instructions to the user, vendor payment information not added

Art Unit: 3624

to the visitor's electronic payment information, storing the payment information in a programmable memory device in a memory portion of the terminal for future processing of the financial transaction, storing payment information from the programmable memory device, storing any type of data for future processing of a financial transaction, or updating the payment information to the issuer of the programmable device for further processing and settlement of the financial transaction. In response, Sehr disclose routing any payment information or instructions to the user (p.2, 24—loading monetary values and payment forms into the card and clearing payments via the card), vendor payment information added to the visitor's electronic payment information (p.2, 24-- loading monetary values and payment forms into the card and clearing payments via the card, which may include vendor information), storing the payment information in a programmable memory device in a memory portion of the terminal for future processing of the financial transaction (p.3, 30—the information is stored, which may be retrieved at any time in the future due to its storage), storing payment information from the programmable memory device, storing any type of data for future processing of a financial transaction (p.3, 30—the information is stored, which may be retrieved at any time in the future due to its storage), and updating the payment information to the issuer of the programmable device for further processing and settlement of the financial transaction (p.3, 32—updates the information pertaining to the card, which may include financial information).

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
